Whereas, in these times of national stress, increased heavy taxes have been, and may yet be imposed upon the taxpayers; and

Whereas, we believe that if the taxes of this county could be paid in two equal installments it would ease the burden of the taxpayers; and

Whereas, we feel that such action if proper, appropriate and expedient at this time: it is hereby

Resolved, that every tax in excess of Twenty Dollars, levied pursuant to section 58 of the Tax Law upon property situate in the County of Ulster, may be paid in two equal installments, as follows: The first installment on or before the first day of February, and the second installment, with interest of one-half of one per centum for each month or fraction of a month from the said first day of February, to the date of payment of such second installmen, in addition thereto, on or before the 1st day of August, following.

ULSTER COUNTY BOARD OF SUPERVISORS
COURT HOUSE, KINGSTON, N. Y.

May 7th, 1942

To the Board of Supervisors
Court House
Kingston, New York

Gentlemen:

Section 15 of the War Council Law of the State of New York reads in part as follows:

"County Directors.

There shall be a director of civilian protection for each county not wholly included within a City. The Chairman of the Board of Supervisors of a county, with the approval of the Board of Supervisors, shall appoint and may at pleasure remove a county director of civilial protection for such county who shall be the head of the office of civilian protection for such county."

Section 11 also reads in part as follows:

"The County shall utilize, so far as possible, the services and facilities of existing officers, offices, departments, commissions, boards, bureaus, institutions and other agencies of the State and of the political subdivisions thereof and all such officers and agencies shall cooperate with and extend such services and facilities to the councils as they may require."

In view of this fact I present the name of James A. Simpson for the office of County Director.

He has spent months of time organizing the various Towns of Ulster County and understands the complete setup of Civilian Protection Service of Ulster County.

With the appointment of Mr. Simpson to the office of County Director of Civilian Protection the County will be able to carry on immediately. No one will have to be trained to take over the numerous duties pertaining to Civilian Protection.

Also, I believe the County will be able to save several thousand dollars in offices and salaries which at this time is most important to the taxpayers of Ulster County.

Very truly yours,

ALBERT CASHDOLLAR,
Chairman, Ulster County Board of Supervisors.

ULSTER COUNTY BOARD OF SUPERVISORS
COURT HOUSE, KINGSTON, N. Y.

May 11th, 1942

To The Hon. Board of Supervisors
County of Ulster
Court House
Kingston, N. Y.

Gentlemen:

Your Committee appointed with full power and authority to represent and act for the Board of Supervisors in the matter of the property located on the easterly side of Fair Street, in the City of Kingston, recently acquired by the county, beg to submit the following report.

Because of the war emergency there is a scarcity of office space required by the rationing boards, the war council, the director of civilian protection and other offices, and we consider it in the best interest of the county to retain the building for the use of these and other boards and organizations.

We therefore have placed the property in the custody of the County Auditor to make the necessary minor repairs and the assignment of office space.

Signed,
JAY W. RIFENBARY,
ROBERT F. PHINNEY,
HARRY SNYDER,
Committee.

Dear Sir:

Section 55 of the Highway Law provides for State Aid for Snow Removal on State and County Highways and in order that we might receive the benefit, it will be necessary for the Board of Supervisors to pass a resolution stating that public interests demands the snow removal from the State and County Highways of the County and requesting that such snow removal be accomplished at the joint expense of the State and County, and it is necessary that the resolution shall specifically designate the State and County Highways from which snow is sought to be removed and the number of miles of each highway. May 14th, 1942

To the Honorable,
The Board of Supervisors,
Court House,
Kingston, N. Y.

Gentlemen:

In the consideration of rerouting civilian traffic with particular attention to milk trucks and other essential movements at such time as when the Army takes over Routh 9W from Catskill to Newburgh, the only weak point in the system is the inadequate bridge spanning the Sawkill Creek near the Boice Farm in the Town of Ulster.

If it becomes necessary at any time to reroute civilian traffic away from the Ashokan Reservoir such traffice approaching the east toward Kingston would have to use a bridge spanning the Sawkill Creek near the Catholic Church in the Settlement of Sawkill. Also should it become necessary to reroute civilian traffice over the county road running from Brunyswick to Pine Bush the bridge at Dwaarkill would be inadequate.

It is therefore respectfully requested that I be permitted to take such steps as may be necessary in the construction of temporary bridges at these points in order to properly safeguard the civilian traffic in connection with National Defense.

Respectfully yours,

JAMES F. LOUGHRAN,
County Superintendent.

Mr. James A. Simpson,
Clerk of the Board of Supervisors of Ulster County
Kingston, N. Y.

Dear Sir:

In view of the fact that last year I filed the claim of the County of Ulster against the State, I feel that I should call the attention of your Board to the necessity for filing a similar claim for the unpaid highway moneys which were due from the State in 1942, which in the case of your County amounts to over $23,000 under Section 112 of the Highway Law and $10,000 under Section 279 of the Highway Law. Unless these claims are filed by the middle of December 1942, they will outlaw.

In February, 1942, I tried three test cases before the Court of Claims involving the liability of the State for unpaid highway funds in 1941, and also to determine the question as to whether the County or the Town is the proper party to sue for moneys due under Section 279. These cases were finally submitted to the Court about July 15th but have not yet been decided. I believe that we have a good chance to win these cases, but whoever loses will appeal and it will be at least a year before the matter gets to the Court of Appeals and is finally decided.

In the meantime, both the towns and the counties should protect themselves by filing claims for the moneys due in 1942. It is not so important whether it is I or someone else who files them—the important thing is that the claims be filed before they outlaw. I have already been retained by several counties to file their claims and I encolse herewith two copies of the form of resolution which was adopted by these counties. If your Board desires to retain me, they should adopt this resolution and send me a certified copy at the earliest possible date, as the time for filing the claims is rapidly drawing to a close.

If any of the Supervisors wants me to file a claim for his town, I will do it on the same terms and will immediately prepare and send him the claim if he will so advise me.

Very truly yours,

GEORGE R. FEARON.

COUNTY OF ULSTER
COMMISSIONER OF PUBLIC WELFARE
32 MAIN STREET, KINGSTON, N. Y.

November 25, 1942

The Honorable Board of Supervisors:

You will find attached statement in the amount of $781.63 covering expenditures from the Non-Settlement Fund for cases for whom the County of Ulster is responsible.

This amount is shown in the statement covering this fund also forwarded you today and the amount of $781.63 should be returned to the fund in order that the value of the fund would be that of the original appropriation and supplemental appropriation, namely $10,000.00.

It is hereby requested that an appropriation be made and levied of $781.63 against the County of Ulster, outside of the City of Kingston, to be credited to the Non-Settlement Fund.

Respectfully yours,

A. D. KNIFFIN,
Commissioner of Public Welfare.

CITY OF KINGSTON LABORATORY
KINGSTON, N. Y.

November 30, 1942

To the Honorable
The Board of Supervisors of Ulster County.

Gentlemen:

At the request of the members of the Board of Managers of the City of Kingston Laboratory, this request for County aid for Laboratory maintenance is submitted.

During the year 1942 the volume of laboratory work for the County has remained approximately the same as for the previous year. There has been some diminution in the number of examinations for certain of the infectious diseases while those performed for the detection of syphilis have greatly increased, due in a large part to the specimens submitted by the Selective Service Boards throughout the County.

The institution of a blood and plasma bank to serve the entire County has in itself added largely to the scope of work done at the Laboratory. At the present time we are collecting and storing for the Ulster County War Council three hundred and fifty (350) pints of undiluted blood plasma in addition to a like quantity for the City of Kingston. We now have on hand three hundred and thirty (330) pints, seventy (70) of which belong to the Ulster County War Council. Such a store of plasma in our vicinity is a security measure of inestimable value, particularly in castastrophies such as have recently occurred in Boston.

We feel that the cooperation given to this project by the Hercules Powder Company should be publicized as a model which other industrial firms might like to follow. We are now in the process of obtaining blood donations from some three or four hundred employees of this organization. The donations are taken in the Medical Clinic at the Plant and the donors are permitted to come in during working hours and their wages permitted to continue for this collection period.

The examinations carried on for the control of public milk and water supplies are gradually increasing in number, and we anticipate a continuation of this increase.

It is the feeling of the Laboratory Board that a request for continued County aid to the Laboratory in the sum of Twelve Thousand Dollars

($12,000.00) per year is an exceedingly fair request and a thoroughly justified expenditure.

We hope that your Honorable Body will grant this aid for the year 1943 with the same spirit of cooperation as in the past.

Very truly yours,

J. S. TAYLOR, M. D., Director,
City of Kingston Laboratories.

APPLICATION OF VETERANS' MEMORIAL HOSPITAL, ELLENVILLE, NEW YORK

To the Board of Supervisors of the County of Ulster for an appropriation in the amount of Two Thousand Five Hundred Dollars ($2,500.00) under Section 12, Subdivision 44 of the County Law of the State of New York.

Veterans' Memorial Hospital of the Village of Ellenville hereby makes application to the Board of Supervisors of the County of Ulster for an appropriation in the amount of Two Thousand Five Hundred Dollars ($2,500.00) for the aid and relief of poor persons permanently or temporarily within the County of Ulster, and alleges:

That your petitioner is a membership organization, duly organized and existing under and by virtue of the laws of the State of New York. That its certificate of incorporation was duly filed in the office of the Clerk of the County of Ulster on the 18th day of September, 1923.

That the corporate purpose of Veterans' Memorial Hospital as expressed in its certificate of incorporation are as follows: "The objects for which the corporation is to be formed are to purchase, erect, establish and maintain a hospital and dispensary."

Veterans' Memorial Hospital is a rural hospital serving a territory about fifteen miles square, in the Southern part of Ulster County. This territory is very thinly settled with a normal population of about six or seven thousand inhabitants in the winter season and a much greater population in the summer season, due to the fact that there is a great influx of summer boarders from New York City in this territory during the summer months.

There are many poor people within this territory who, from time to time require the service of the hospital but cannot in a great many instances, pay anything for the accomodations and care and treatment which they receive, and there are others who require the service of the institution and can only pay a small portion of the costs of their care and treatment in such an institution. In addition to this, there are many summer boarders who, during their vacation in the summer become sick and are disabled and are brought to the institution for care and treatment, and are unable to pay either in full or in part for the services which are rendered to them, and in as much as the Veterans' Memorial Hospital is a charitable institution, it has never turned away anyone who was in need of its service, regardless of whether or not such an individual could make payment of all or any part of the costs of care and treatment rendered. For this reason the institution hereby requests that the Board of Supervisors of the County of Ulster appropriate the sum of Two Thousand Five Hundred Dollars ($2,500.00) for the purpose of said hospital in caring for such poor and indigent patients.

Your petitioner further states that Veterans' Memorial Hospital was established and erected and maintained as a monument and memorial to the ex-service men of the World War, and that its name clearly identifies it as such.

Dated November ...., 1942.

By WILLIAM L. DOUGLAS,
President.

ULSTER COUNTY TREASURER'S OFFICE

Kingston, N. Y., Dec. 9th, 1942.

J. A. Simpson, Clerk,
Board of Supervisors,
Kingston, N. Y.

Dear Sir:

1924, 1925 and 1926 taxes in Town of Hurley, assessed as "Euphenia Markle, Hurley Patentee Woods, Great Lot No. 2, 194 acres, Bounded Northwest by Boulevard; Northeast by Chase, Southeast by Fredle, Southwest by Warren" have never been paid to this office, having also been rejected by the State Comptroller for improper description and therefore remain open on said 1924, 1925 and 1926 tax rolls.

The Home Owners Loan Corporation are willing to pay these three years taxes provided we accept same without any penalty and interest.

Inasmuch as these taxes were rejected by the State Comptroller and therefore the payment of same could not be enforced through a sale of the property we suggest that the Board of Supervisors authorize this office to accept the sum of $150.87 for the 1924 taxes, the sum of $177.13 for the 1925 taxes and the sum of $161.35 for the 1926 taxes on the above described property, in full payment of said three years taxes.

Very truly yours,

C. A. LYONS,
County Treasurer.

ULSTER COUNTY TREASURER'S OFFICE

Kingston, N. Y., Dec. 14th, 1942

J. A. Simpson, Clerk,
Board of Supervisors,
Kingston, N. Y.

Dear Sir:

There is a property in the Town of Shandaken, described as Shelbourne Hotel, Pine Hill, bounded North by Hill, East by Watson, South by Highway, West by Griffin, 1 acre which was sold to the County at the County Treasurer's tax sale held on December 28th, 1939, for unpaid taxes of the year 1938, and no taxes have been paid on this property since said sale.

The property is only a vacant lot with an old barn on it and Mr. Fred D. Cure of Pine Hill, N. Y. has made this office an offer of $100.00 to cancel this 1939 tax sale and the 1939, 1940 and 1941 taxes on this property. We believe it to be to the interest of the County to accept this offer and we urge your Honorable Board to authorize this office to accept same and make our records accordingly.

Very truly yours,

C. A. LYONS,
County Treasurer.

ULSTER COUNTY TREASURER'S OFFICE

Kingston, N. Y., Dec. 14th, 1942

J. A. Simpson, Clerk,
Board of Supervisors,
Kingston, N. Y.

Dear Sir:

There is a property in Town of Shandaken described as "Rossmore Hotel, Highmount, Bounded North by Mandlebaum, East by Tannenbaum, South and West by Railroad, 4 acres" and sold to the County at the 1933 tax sale for 1932 taxes. The same property was sold to the County again at the 1937 tax sale for the 1936 taxes, and the 1938, 1939, 1940 and 1941 taxes are still unpaid.

The total amount of these unpaid taxes with advertising costs included, but without adding any interest or penalties, is $505.13 and we have been made an offer by Geo. A. Speenburgh of Fleischmann's N. Y. to pay this amount in full settlement of these unpaid taxes and unredeemed sales.

Inasmuch as there has been no hotel on the property for some years and the County would be reimbursed for all taxes against the property plus the advertising expenses incurred, the County Treasurer requests that the Board of Supervisors authorize this office to accept the sum of $505.13 in full payment of the taxes and sales above mentioned.

Very truly yours,

C. A. LYONS,
County Treasurer.

Gentlemen:

At the 1938 tax sale held on December 28, 1939 the property against which the name "Fulton Furniture Company" appears on said tax roll for the Town of Shandaken, containing 60 acres more or less and bounded North by Benson, East by Linton, West by Creek and South by Holden, was bought in by the County of Ulster.

I, the undersigned, hereby agree and offer to pay to the County of Ulster the sum of Five Hundred Dollars ($500) payable upon delivery of quit claim deed for that portion of the above described property on the north side of the road known as Route No. 28 containing 30 acres more or less and bounded as follows: North by Benson and Carter; East by Linton; West by the State of New York National Bank and Benson; South by Route No. 28.

MYRON C. THOMPSON.

Highland, N. Y., December 26, 1942

Ulster County Board of Supervisors
Kingston, N. Y.

Attention: Mr. James A. Simpson.

Dear Sir:

I reside at Highland, in the Town of Lloyd and have become interested in an old cider mill property on Main Street near the 9W viaduct.

This property is an old dilapidated building little more than a barn and has not been used as a cider mill for a great number of years.

The machinery is practically all removed.

Taxes have not been paid on it since the tax due in 1935 and the county has bid it in on two tax sales.

There is a balance due on the sewer assessment of $465.00 to the Town of Lloyd and there will be a large tax due in January of 1943.

I would like to buy this property and improve it so that I might have a dwelling for myself and family.

In view of the sewer assessment, the taxes coming due and the condition of the building and other circumstances, I would like to offer you $125.00 for a deed from the county.

If you would sell it to me for this amount I am sure that I can improve it so that in the future town and county taxes can be collected regularly on this parcel. The property is assessed to Bingham, Mary Estate, located on the River Road at Highland, in the Town of Lloyd and is known as Lot 94 of Section 17 of the tax map of the Town of Lloyd.

Very truly yours,

CLARENCE THERRIEN.

Phoenicia, N. Y., December 28, 1942

To the Board of Supervisors of the County of Ulster,

Gentlemen:

I hereby offer to purchase from the County of Ulster, the certain parcel of land situate in the Town of Hardenburgh, assessed under the name of Molyneaux Estate, 750 acres easterly part of 8,000 acre tract which was sold to the County of Ulster at the 1936 tax sale for 1935 taxes, and agree to pay therefor the sum of $800.

I wish to state to the Board that the purpose for which I am purchasing this parcel is to use the same for selective cutting of timber in connection with other lands which I own in the same locality and it is my intent and purpose to retain possession of this parcel and not to completely denude the tract.

Yours very truly,

EUGENE GORMLEY.

REPORT OF THE ULSTER COUNTY TUBERCULOSIS HOSPITAL FOR THE FISCAL YEAR ENDING OCTOBER 31, 1942

To: Dr. Frank B. Seeley, President, and to the Board of Managers of the
Ulster County Tuberculosis Hospital:

Recently the New York State Health Department published the death rate from Tuberculosis in Ulster County for 1941. We find that this has reached the lowest point in the history of our county. As we compare it to the figures of only fifteen years ago, which were 103 per hundred thousand population, we are gratified to learn that the latest statistics show a rate of 31 per hundred thousand. To those who have contributed to this remarkable decrease in the mortality and morbidity we feel that a tribute should be paid. To accomplish this result no single person or any single group of persons can claim the full credit. The combined efforts of the educational work which has been done over a period of years by the members of the Ulster County Committee on Tuberculosis and Public Health; by the members of the medical profession of the County of Ulster; by the personnel of the district state health office and the public health nurses of the county; by the staff of the Ulster County Tuberculosis Hospital; and to a great degree by the intelligent co-operation of the people of the county, this most satisfactory figure must be credited. It has been a splendid bit of team-work, and we all are grateful to our County Board of Supervisors for their financial assistance in the way of sufficient appropriations, without which this work would never have been done. It is a well known fact that when a country is at war the tuberculosis death rate in any community usually rises. This has been due to many factors—long hours of work, over-crowding in homes, the consequent nervous strain which prevails among the people of a community, the tendency to neglect periodic health examinations—all have contributed to this usual increase in the prevalence of tuberculosis cases. Fortunately, the lessons of the last war have not been altogether forgotten during this second world war. It has been estimated that undiscovered cases of Tuberculosis cost the United States Government over $100,000,000 following the first world war during the past twenty-five years. Due to the routine X-raying of inducted men it is hoped that a tremendous saving of lives and money will be effected during our present world wide struggle. For several months when more complete examinations were done at the local medical boards and before men were sent to induction centers without complete examinations, we X-rayed over 1,400 Ulster County boys prior to induction. Many cases of Tuberculosis were discovered, as well as other heart and lung abnormalities. These X-rays will remain at the Ulster County Hospital and will be of great value in the care of these men when they return to civil life. At the present time we are X-raying large numbers of workers in industrial plants, and we are encouraging the X-raying and examining of applicants for war-time jobs. We still are carrying on as many examinations of school children as the time will allow. Last year nearly 4,000 X-ray films were taken of persons in the county who were referred to the hospital for examination.

It must still be remembered that despite all our efforts Tuberculosis is the commonest cause of death between the ages of 15 and 25, and despite a most satisfactory mortality rate in Ulster County this is no time to relax our vigilance.

Many workers in war industries in this vicinity are patients who have been cured and who are now contributing to the war effort, as well as healthy individuals who have never contracted tuberculosis. There are still 599 reported cases of tuberculosis on our list, and with an average of four family contracts per case the group who must be examined and X-rayed periodically is well over 2,000 persons. Various types of X-ray films, together with many laboratory procedures, such an examination, culture and inoculation of guinea pigs for the detection of tuberculosis, are now available in our modern and well equipped laboratory system. Without all these aids in tuberculosis control, satisfactory results could never be obtained.

During the past year our hospital has operated to a practically full capacity, and while we have lost some employees who have either entered the armed forces or have taken up positions in war industries at much higher wages than we could pay, I feel that our standards of medical and nursing care in the institution, as well as the various other departments which carry on the necessary work in the operation of a hospital, have not been lowered appreciably. Many of our employees have had to assume extra duties, but have done so in a way that reflects great credit on their loyalty to the hospital. At this time I feel we all owe them a debt of gratitude for working longer hours and performing their duties efficiently and in a cheerful manner.

In summarizing the clinical work which was done in our hospital during the past year the following figures are presented:

Hospital days service rendered to patients	19,708
Net cost per day patient	$3.43
Total clinic cases examined and treated	2579
New positive cases of tuberculosis discovered in clinic	108
Patients admitted to hospital	85
Patients discharged from hospital	83

Comparing the status of the cases admitted in the year 1932, which numbered 90, with those of this year, we note a most interesting fact. Fourty-seven of the ninety cases admitted ten year ago were in the far-advanced stage of tuberculosis. Last year of the eighty-five cases admitted, twenty-four were far advanced or 28%. This would prove that the earlier diagnosis that is being made has contributed greatly to the fall in the death rate in the county from 85 to 31 last year.

It has been, of course, impossible to operate the hospital at as low a figure as was done last year. The following table of hospital expenditures will show greatly why some rise in operating costs have been and will be unavoidable.

Salaries and Wages	$ 36,585.54
Food, Ice, Water	16,951.90
Fuel, Light, Power	6,604.58
Repairs, Maintenance, New Equipment, Replacements	7,423.29
Medical and Surgical Supplies	2,123.40
X-Ray and Clinic Supplies	1,876.87
Cleaning Supplies	1,270.25
Household Supplies	1,190.68
Laundry Supplies	712.22
Telephone	569.69
Car expense	324.72
Office Supplies	333.51
Insurance	172.81
Sundry expenses	923.05
	$ 77,062.51
Less amount received from patients	9,408.86
Net amount of operation	$ 67,653.65

Our food costs have advanced $2,987 over last year, or 21%. Our salaries have only advanced from $34,752.36 to $36,585.54, or 5% over last year. You will note that the item of Repairs, Maintenance, New Equipment and Replacements has increased $1,473.37 over last year, or 25%. The painting of the entire buildings, including the hopsital, nurses' home and water tower, cost $2,683.

An inspection of the hospital will show that the property is at a high level of maintenance at this time. The Board of Managers has followed its previous policy of making necessary repairs and replacements when needed. I believe that this is a business like method in not allowing the property to become depreciated so that large expenditures would be required in any one year.

We have made every effort to collect as much as possible from patients who are being treated in the institution. This has always been done with due consideration for the financial status of all patients admitted to the hospital. Our receipts from the hospital and clinic patients have increased during the past year to the amount of $1,459.97. In comparing our income from patients with that of other county tuberculosis hospitals in the state, you will find this is a most satisfactory figure.

Following recent conferences with the District State Health Officer, we are planning to survey all reported cases of Tuberculosis in Ulster County. Some of these cases were reported several years ago and have not recently been examined. With the co-operation of the attending physicians of these families, and with the aid of Miss Murphy of the Ulster County Tuberculosis Health Association and the public health nurses of the county, every effort will be made to bring in these patients and members of their families to determine whether or not they are still active and perhaps contagious; or whether they have become cured or arrested cases whose names might be removed from the roster. This will involve the X-raying of several hundred individuals, and much valuable information will be obtained and a further necessary step will be taken to insure further control of Tuberculosis in this county.

We are again indebted, as in the past, to the physicians of the county who are often called upon to see patients who may have conditions which need the attention of the various specialists. We have always found these physicians willing to help us in the care of our patients.

The Ulster County Highway Department, under the Direction of the Superintendent, Mr. James F. Loughran, has carried on the work of maintaining the roads on the hospital property. The City of Kingston Department of Public Works has also co-operated in every way in any assistance which they could give us.

The large amount of laboratory work which is required in an institution of this kind has been efficiently done at the Kingston Laboratory, under Dr. Taylor's supervision. To all these agencies we extend our thanks.

The department of Thoracic Surgery, which has been carried on for many years by Dr. Joseph Jacobson, must of necessity be greatly curtailed during his absence while on duty in the Navy. Dr. Robert Plunkett, Superintendent of State Tuberculosis Hospitals, and Dr. Ralph Horton, Superintendent of the Homer Folks Tuberculosis Hospital at Oneonta, are extending to us every possible assistance in the care of patients who are greatly in need of thoracic surgery. These operations are performed at this time at the hospital in Oneonta, and the only cost that must be borne by the county of Ulster is the charge of $17.50 per week for the maintenance of these patients while they are in that institution. The orthopedic work which was formerly done by Dr. Saul Ritchie, who also is now in the Army, will have to be performed at the State Tuberculosis Hospital in Oneonta. This work is absolutely essential in the cure of certain cases of Tuberculosis, and some provision will have to be made to meet this comparatively small expenditure. All this emphasizes the generous contributions which have been made to our hospital in the past by men who have rendered their services gratuitously to the county and who are now serving their country in the Army or Navy.

A most important work which has assisted greatly in the rehabilitation of our patients has been borne by the Ladies' Auxiliary of the hospital. There are only a very few women who have devoted their time and energy to the work of the Auxiliary. I feel that it is most unfortunate the active membership in this work has been so limited. May we hope that in the future, despite all the other demands made on their time during a world war, more public-spirited women could find the time to become interested in this most important field of endeavor.

During the past year the Board of Managers has carried on the work of supervising and advising in the administrative work of the hospital. Each member of the Board has shown a keen interest, not only in this phase of the institutional activities, but also extended this interest in the welfare of the patients both in and out of the hospital. The people of the county should realize and appreciate the time which the Board of Managers spends in the interest of our institution.

It has been my privilege for the past eleven years to appear before the Board of Supervisors of Ulster County to render an account of our clinical and administrative work during the past year. May I once more thank this Board for their whole-hearted co-operation and their continued interest in the work of this institution. We have attempted to make a contribution in the public health field of the county, and I can assure you that we will continue our efforts in the future toward the control or eradication of Tuberculosis among all of our citizens.

Respectfully submitted,

FREDERIC W. HOLCOMB,
Superintendent.

ANNUAL REPORT OF THE PRESIDENT OF THE BOARD OF MANAGERS, YEAR ENDING OCTOBER 31, 1942

To the Board of Supervisors:

Gentlemen:

The Board of Managers submits an account of its stewardship for the fiscal year. The report covers briefly the professional work and the care of the physical property. On the professional work you are fully advised in the detailed report of the Superintendent, Dr. Frederic Holcomb. We desire to express our pride and satisfaction in the outstanding professional skill of the Superintendent and his untiring devotion to the work of the hospital. He has been assisted in the past year by Dr. Irving J. Josephson as Assistant Physician, whose work has proved his high efficiency.

The Board and the hospital have been forced since last June to lose the services of Dr. Joseph Jacobson, who not only served as a most valuable member of the Board of Managers but gave his unparralleled skill as chest surgeon to the hospital without charge to the county. His enlistment in the Navy last June, while a great gain to the Armed forces of our country, is a great loss to our hospital. In that connection the Board of Managers desires to call the attention to the Board of Supervisors to the increased cost to the county of the care of patients in the State Tuberculosis Hospital at Oneonta for the special treatment we are unable to give our patients since Dr. Jacobson left. We have been paying $17.50 per week out of our budget for the care of these patients, and must soon send another patient for an indefinite stay. The Board must recognize what it has meant financially to the county to have had the free services of Dr. Jacobson. Dr. Saul Ritchie, who is now also a member of the Armed forces, has given much service as Orthopedic surgeon without charge to the county, and we are very grateful to him.

The nursing care under the supervision of Miss Elizabeth Kraus and her fine corps of nurses has been of the highest standard of efficiency.

On August 31st the Board of Managers received the resignation of Mr. Christopher Snyder as Business Manager owing to illness, and in accepting it the Board expressed its great appreciation of his faithful service rendered since the opening of the hospital. The Board unanimously nominated to the State Civil Service Department the name of Mary Richards Weber for appointment as Institutional Manager, and the appointment has been officially approved by that Department. In this connection the Board feels itself very fortunate to have Mrs. Weber as Institutional Manager. She has been with the hospital since its opening; is entirely familiar with every detail of its operation, and has most unusual knowledge and skill in its direction.

The Board has welcomed to its membership the Rev. John P. McCaffrey, whom your Board appointed in the place of the Rev. Henry E. Herdegen. Father McCaffrey has brought to us a fine mind, spirit and great interest in the work.

In the maintenance of the physical property, the exterior of the hospital and nurses' home has been painted at a cost of $2,125, and the water tower at a cost of $558. New refrigeration became imperative, and we were very fortunate in being able to install entirely new refrigeration at a cost of $426. New widnow shades have been installed throughout the building at a cost of $200. Our employees have painted practically the entire interior of the hospital. The interior of the Nurses' Home has not been painted since 1937, and this work must be done this year. The cost five years ago for the work was over $500, and of course will be more this coming year.

We report 19,708 hospital days at a net per capita of $3.43, which is 27c more than last year. This increase is divided between repairs— approximately $1,500; food—approximately $2,900; salaries—approximately $1,800, and fuel and light $400.

I desire to call your attention to the fund to provide moving pictures for the patients. Through the generosity of individuals a fund was provided that enabled us to give the patients every month the best pictures at a cost of $25 per month. This fund became exhausted in September, but the Board felt it of such a great value of the patients that it authorized the continuance of this entertainment at a cost of $25 per month. Cannot we hope for private contributions to meet this expense?

I wish to express my appreciation of the gracious co-operation of the members of the Board of Managers and their devoted interest in the conduct of our hospital.

The Board is very grateful to the Ladies' Auxiliary for their tireless, efficient service to the patients under the leadership of Mrs. Frederic Holcomb.

The confidence of the Board of Supervisors in the management is most deeply appreciated and your interest and co-operation mean much to the Board.

We have a united desire to so conduct the Ulster County Tuberculosis Hospital that it will continue to be a source of pride on the part of all the citizens of Ulster County.

Respectfully submitted,

F. B. SEELEY,
President, Board of Managers.

SUMMARY OF ACTIVITIES AND ACCOMPLISHMENTS OF THE ULSTER COUNTY HOME BUREAU

December 1, 1941—November 30, 1942

The ink was scarcely dry on last year's annual report when the country was catapulted into war. The administration group of the Ulster County Home Bureau met immediately to evaluate long and short time goals, to make sure that the program for 1941-42 then under way would provide assistance to the soldiers of the home front, the homemakers of the county.

The concept of woman as the guardian of the race and the heart of the home is an old one, a heritage of love and culture and for twenty-six years the Ulster County Home Bureau has worked to help women realize that concept. At any time this a grave consideration for women and means continued growth in capabilities and discrimination.

In a war economy it is not only as applicable as ever but it is absolutely fundamental for in a democracy the ends to be maintained at any cost including war itself are the rights of the individual. This development has its beginning in the home. Everything in the home revolves about that central thought.

It was, then, a happy reassurance when the program for 1941-42 planned for peace, now examined in the light of war, was found increasingly important as a means of fulfilling obligations on the home front. The plan of work for 1942-43 is built on the theme of conservation of time, money and resources.

Where Changes Came

It soon became apparent that fewer meetings due to the limitation in transportation and greater farm production meant a strengthening of methods of teaching.

County wide meetings were reduced to minimum; unit meetings were streamlined to produce the greatest fruitfulness in the shortest time. In spite of adjustments, transportation and labor shortages have reduced attendance at meetings this fall.

Leaders were given more concentrated material by the specialist. Training meetings in all project fields were held simultaneously thereby saving travel. 232 leaders have served during the year.

Circular letters and individual letters and newspaper articles were increased in number and included more specific information. (29 circular, 1515 individual, 271 newspaper articles). The radio came into it own as the quickest medium for extending information.

Summary of Meetings

496 members were enrolled in 1942 in the following units: Accord, Ellenville, Flatbush, Forest Glen, High Falls, Hurley, Kingston, Lake Katrine, Lomontville, Milton, Modena, Napanoch, New Paltz, Shokan, Wallkill and Woodstock and 130 women were enrolled in child study clubs making a total of 626 individuals meeting regularly for work in civics, clothing, family life, foods and nutrition, health, home grounds improvement, home management, housing, recreation and cooperative activities. There was a total of 772 meetings with an attendance of 6158.

Young Mothers Prepare for New World

The work in family life is basic to the entire homemaking program. There is nothing more heartwarming and nothing more hopeful for the future of our world than the sight of young mothers meeting together to learn better ways of bringing into reality their high ideals of motherhood.

130 mothers met on the average of twice monthly during the past year. They chose for study and discussion those courses most pertinent to their immediate needs. A few of these were "The American Family in a Changing Society," "Understanding the Adolescent," "The Guidance of the School Age Child," "The School-Age Child in the Community" and "Getting a Good Start in Life." That discussion of these themes served

to broaden the vision of these young homemakers and brought about the disciplining of themselves they vividly testify in their individual reports.

The marked difference in accomplishments this year seems to be their awareness of their relation to, their influence on and their responsibility for their own communities. They think it is up to them "to set a good example."

Courage to Face the Work Ahead

No less impressive than the young mothers are the women in their later years facing with courage the fact that no one else is to be blamed for what they are as adults, either individually or in the aggregate. Still more inspiring is their willingness to do something about it, but that is what 130 of them did in courses on "Understanding Ourselves," "Getting Along with Others" and "Personality Development."

The family life specialist made 10 study club visits; the agent 17. 9 clubs sent representatives to the Family Life Conference in Ithaca. 126 study club meetings were held with an attendance of 1557.

Planning Meals to Hit the Spot

All the talk in the world about good nutrition and its importance to dynamic health is not half as convincing to members of the average family as a meal set before them that is so appealing in appearance, so savory that they can scarcely wait to begin. That is why the Home Bureau teaches good nutrition by combining theory with food demonstrations which show women how to present carbohydrates, fats, proteins, and the more elusive vitamins and minerals to their families in dishes they will enjoy and that they can afford. 158 meetings were held in foods and nutrition with an attendance of 1711.

Conservation of Fats

With the call to housewives to save waste fats it was necessary to have someone in every community prepared to explain the program both to homemakers and to butchers. This the Home Bureau undertook at the invitation of the Director of Civilian Mobilization.

Mrs. Auley Roosa was appointed chairman. Foods leaders cooperated by calling on the butchers in their towns, giving them the necessary information and leaving posters and stickers. To be prepared to help homemakers they were given training by the foods specialist in the reasons for the program, its importance in the war effort, methods of clarifying fat and its use in such recipes as split pea soup, bacon muffins and gingerbread.

Lessons were given to unit members and in the publicity written weekly by the chairman, anyone interested in the wise utilization of fats was referred to the local leaders. Women say they have put this information into use and butchers report they have received a marked increase in fats which they have passed on to rendering plants.

Food Preservation

Over and over again through the year homemakers were urged to can everything they could, to dry, to freeze, to store, with the result that over ten times as much food is reported to have been preserved this year as last. Here are the reports: 16,650 jars of fruits and vegetables canned, 2806 jars of jelly made, 700 quarts of fruit and 300 pounds of meat frozen, and 411 bushels of vegetables stored.

Cooperative Activities in this field include assistance given on the use of surplus commodities, school lunch programs, Ulster County Nutrition Committee and Victory Garden Programs.

Forum Established

Representatives from Ellenville who met in November, 1941 with Mr. Morris Storer, specialist in the discussion method, were inspired to establish a forum for their village which was opened on January 8, 1942. A committee of interested townspeople planned the program on public problems and speakers included local men and women and county officials.

Attendance ranged from about 40 to 125 at the six meetings which seemed to indicate considerable interest especially when at that time there were many defense classes under way offering competition. Plans are under way for a continuance of the forum in January, 1943.

The World We Want After the War

To help women keep informed and alive to fundamental principles and values in all human relationships, especially those for which we are fighting and which must be given consideration in building for a just peace, the agent has used Lewis Mumford's book, "Faith for Living" as the basis of discussion in 7 units. The 91 women who attended were very responsive to the summary of the first section which deals with the causes of the present crisis. These causes lie deep and involve thinking through one's philosophy and man's moral responsibility for shaping the world. They are looking forward to continuing discussion at the second meeting which will deal with specific things we want in the world after the war.

Public Problems Committee

A committee made up of representatives of various churches, professions, business, small trades, agriculture and government has been working through the fall on plans for interesting small neighborhood groups in discussions of current problems. A series of radio talks will begin in January.

Clothes Do Not Make The Man But They Keep Up Morale

There will not be many new clothes for any of us during the time immediately ahead, so it behooves us to do everything we can to keep the ones we have looking well. That is what homemakers have been doing during the past year. 95 attended a lecture by Mr. Helen Buttrick where she used women from the Woodstock unit as models to show that dresses which had been in the wardrobe for several years were still becoming because of their line and color. She showed how accessories could be made to make them seem new.

Anticipating that services are one of the first things to go in a country geared to war, women are preparing to do more of their own pressing and cleaning of clothing. Leaders have had lessons on the making of pressing pads, pressing of both men's and women's clothing and spot and stain removal. These instructions will be passed on at unit meetings during the winter.

Keeping Mentally Well

Dr. Alice Rost, a local psychiatrist, has given two lessons on mental health to local leaders during the year on accepting life as it is and symptoms of emotional maturity. The leaders report that unit members enjoyed these lessons. One says she thinks "this work will help us all to meet these trying times with a clearer understanding and less friction," and another that she feels "we will all have better physical health when we have better mental health."

Women feel they have helped in overcoming their fears and worries. They have discussed ways of controlling their emotions, temper especially. They say they see the "value of withholding severe judgments of people until we examine our own biases and prejudices," and they have gained confidence from knowing that they can be mentally healthy, that there can be improvement.

Two weeks ago Dr. Mary Fisher, Director of the Vassar Institute of Child Development, led a discussion on "The Importance of Family Life During Wartime" for mental health leaders and study club officers. This will be repeated in the units in the winter months. Mrs. Fisher helped the group to see that the attitudes and atmosphere in our homes today will cause the shape of the world tomorrow. As she said "these attitudes will affect the history of the next 100 years."

Christmas Greens

As usual women made Christmas decorations. 149 made 161 for home use, valued at $128.00; 37 were sold for $28.25 and 16 given to friends.

Sharpening of Knives is one responsibility 91 women are now able to assume for their busy men folks, having had lessons given by local leaders and they have also received training on the proper care of utensils to extend the length of their usefulness.

Shampooing Rugs and Cleaning Furniture

Soap and water flew this spring when 7 units were given instructions on the shampooing of rugs, upholstered furniture, the washing of woodwork, varnished surfaces and the cleaning of wall paper at working meetings conducted by the agent. As a result 139 pieces of furniture were shampooed. 225 highly polished articles were cleaned and 107 found this information so helpful they passed it on to others.

The Three R's of Furniture Conservation

Refinishing, repairing and remodelling, the reading, writing and arithmetic of furniture conservation, are keeping the Ulster County homemakers busy. 112 pieces have been done over including chairs of all types, tables, footstools, chests of drawers and even two pianos. 13 chairs have been recaned.

One of the time consumers for men are the odd jobs around the house—small repairs of furniture, glueing, replacing rounds, etc. These can be taken over by women and they are scheduled for meetings this winter when the county leader and agent will teach simple repairs and remodelling.

The Home Bureau was responsible for the Home Department of the Ulster County Fair. On exhibit there were a collection of mended articles, a food preservation clinic and an exhibit of inexpensive materials that make it possible for one to keep well informed.

The three departments of the Farm, Home Bureau and 4-H Association held the annual meeting and published the News during the year. In addition the Home Bureau has sent out a monthly newsletter with timely information on canning and preserving, household hints, etc.

Home Bureau members served on Health, Legislative, Nutrition and Library committees of the New York State Federation of Home Bureaus. The chairman of the Eastern District Federation of Home Bureaus is a county woman. Delegates were sent to annual meetings of both groups.

The Executive Committee met 12 times during the year to direct the administrative work, make the budget and receive reports from county and local leaders and agent. The agent spent 103 days in the office and 181 in the field.

Respectfully submitted,

EVERICE PARSONS,
Home Demonstration Agent.

ANNUAL REPORT OF ULSTER COUNTY 4-H CLUB WORK FOR THE YEAR 1942

War Service

Enlistments have taken 116 4-H Club members, who were active in clubs, or were recent club members. Today our boys and three girls are in all branches of service in both hemispheres. The new draft age of tomorrow will take many more from active club work. The recent changes in selecting men will however keep farm workers on the soil to produce food.

Even while this report is enroute, many more of our 4-H Club boys who do not have sufficient animal units to qualify as an essential farmer or farm helper will be inducted in the Service.

This very minute word has come from a prominent 4-H boy in the Navy, "Safe on Land in Guadalcanal." The boy was aboard one of the newest and fastest heavy cruisers.

This should make everyone realize a 4-H member who did produce food, can carry the fight to our enemy. Our two gold stars signify the lives of two Ulster County 4-H rural boys.

This county is very mindful of our task, to give boys and food in this fight for democracy. Our thought is totalitarian, fight. Fight with everything we have. Produce, work and help finance the way. This new year will bring a watch-word; Food is ammunition for our fighting forces.

4-H members are united to resist all efforts to destroy democracy.

ANNUAL REPORT ULSTER COUNTY 4-H CLUBS

For two months, my Annual Report has been on my mind. The 1941-42 program, was completed and approved by my Executive Committee, December 1, 1941. On the morning of the 8th of December it was obsolete. These last twelve months have brought new work, and this work came into a new tempo. Everything was geared to a producing war machine. It has been much different than 25 years ago.

On receipt of my Standard Report Form, the eight suggestions on page 2 are guiding me to offer a better Annual Report.

Before the ink dried on the 1942 plan, word came of war. Immediately new plans had to change 4-H Club work to war conditions. Without lost motion, our boys and girls started their war work with greater effort. Many of the older boys enlisted; 70% of those old enough enrolled in First Aid, Home Nursing ,volunteered for airplane spotting, aided in canvassing homes for evacuee information and collection drives. All ages buckled down along the line with a war effort eye on the beam and they are still on the beam.

Drives

Aluminum, Share, Paper, Stamps, Rubber, Bonds and Scrap.

Every 4-H Club, large and small, mastered the drives offered them. Individual illness only kept members from working. The results are amazing, as listed:

Pounds of paper collected	361,840
Pounds of rubber collected	298,107

Summary

4-H Club members assisted P. T. A. with refreshments, both serving and preparing.

Many 4-H Clubs and Club members assisted Community Housing Chairmen with data relating to Evacuee work.

Many 4-H Clubs are assisting in the preparation and serving of hot school lunches.

4-H Clubs are holding Community Get-togethers.

Rifton and Zena 4-H Clubs have provided Service Flags and Honor Rolls to their communities.

Several 4-H Club members are members of the Junior Red Cross.

Boys and Girls of 4-H Clubs are reconditioning old toys to be given to the Red Cross or other local committees for Christmas boxes.

4-H Club members are aiding in the preparation of "Christmas Boxes" to be sent to the boys in the Service from their communities.

One club sold tickets for the United China Relief.

Several 4-H Clubs and Club members have served at Church Suppers —using in 'walking distance'—the balance of the evening spent with recreational and social games, thus providing local rural entertainment.

To summarize the Ulster County 4-H Club War work in projects from office records would not give enough credit to my boys and girls. Every community group has worked daily with war and defense effort.

More food has been grown; more food preserved; better poultry flocks have been grown, thus more eggs; more young stock started; more hours spent in labor; less playtime; purchase of stamps and bonds; and with all this war effort, they have found time to help the Minute Men, help 100% with the salvage campaign; helped with Air Warning Service; made airplane models—all—is more than was expected last spring time.

The 4-H Club Department

4-H Club work in Ulster County is conducted under the New York State law which allows County Boards of Supervisors to make appropriations to carry on the work. This law also provides State aid to the extent of $900.00, to each County employing one full time County Club Agent. Federal funds amounting to $900.00 were provided under the provisions of the Smith-Lever Act of May 3, 1914 and Jones-Bankhead Act of June, 1935. In December 1941, the Ulster County Board of Supervisors passed an appropriation of $3,500.00 for the conduct of 4-H Club work in 1942. This with State and Federal funds, a balance of $23.81 and miscellaneous $101.07 made a total Budget of $5,424.88.

The County appropriation is made to the Farm and Home Bureau and 4-H Club Association which delegates the administration of the work to a 4-H Club Department Executive Committee. The composition of this Executive Committee is:

Mr. Pratt Boice, Lake Katrine, Chairman
Mrs. Hugh Furguson, Lake Katrine, Vice-chairman
Miss Harriette Thomas, Flatbush, Secretary
Mr. Eber Coy, Ardonia
Miss Anna Devine, Rifton
Mr. R. V. O. DuBois, Gardiner
Mr. Franklin Kelder, Accord
Mr. John A. Saxe, West Hurley
Mrs. William A. Warren, Hurley

Ex-officio:

Mr. C. C. DuMond, Ulster Park (President of Farm & Home Bureau and 4-H Club Association).

Mr. Millard H. Davis, Kerhonkson (Honorary President of Farm & Home Bureau and 4-H Club Association).

Mr. E. W. Hathaway, Kingston (Treasurer of Farm & Home Bureau and 4-H Club Association).

The Executive Committee met in January, April, October and December. At these meetings the agent reports on the work he has done since the previous meeting and outlines the plans for the coming months. All matters of policy are discussed and passed upon by the Executive Committee. All bills are presented for approval to the Finance Committee of three members. The Budget and plans for the coming year are discussed at the October meeting.

1942 Projects

No doubt the Victory Garden was the leading project here in Ulster County. Mrs. William A. Warren was elected Chairman. Her experience of twenty-five years of Extension Work, her experience in the last World War, her experience in preserving and conserving, her experience in practical gardening and floriculture, her offices in many gardening clubs (local, state, National) and her lack of home ties allowed her to give freely, time and counsel in this projejct, made her an ideal chairman.

The Victory Garden work although formost in 4-H Club work extended to all adults, men and women, urban, suburban, and rural people. Mrs. Warren's report:

"Ulster's Victory Garden effort was started in the spring of 1942 with Mr. Bower's appointment as Executive Co-ordinator by the State College of Agriculture, after which I was elected chairman to co-operate with Mr. Bower. After a conference with our Committee it was decided to ask each town chairman to appoint a Victory Garden Chairman. From 20 Townships, nine chairmen were appointed. However, we have registrations and active Victory Garden workers in all Townships and Kingston City.

"At this time a list was compiled from the Triple A mailing list, of those with a three acre farm or more, and 3400 Garden Leaflets from the College were sent out. From this list we received 980 replies. This list of 980 received the remaining five seasonal leaflets, and they were also indexed at the 4-H Office. Mr. Bower and I went on record as being willing to assist by letters or at regional meetings, judging, etc., and we have had many interesting contacts during the season.

"Miss Parsons and Mrs. Chase of the Home Bureau offered their services in the Canning and Preserving of foods. Mrs. Chase going to Ithaca to take a course in this vital subject. Their cooperation has been of the greatest help, and it certainly adds interest for all of us to know what to do with the spinach after we grow it. The old slogan of 'What you can't eat, you can,' still holds good, but now we must also add to that what you freeze, dehydrate and bury in the ground. Food for Victory also means fresh vegetables for the health of the family and I know at our house I had a hard time to get them on the table because they were always 'just right' for canning. Saugerties, Hurley and Olive lead the canning list.

"In November check-up cards were sent out asking for reports on the summer's Victory Garden work and the resulting cannings and storage of vegetables. From the number of replies received only 43 have stated the actual number of cans put up, the total being 9090 cans or an average of over 250 cans per family. Almost every family listed 'has done some canning,' but because we were not explicit enough on the check-up cards, they have simply answered 'yes' or 'I canned, beans, peas, and carrots.' Some reports on other methods of keeping winter vegetables were made, but canning was the method used by most people. Replies from 346 were received to date (November 30, 1942), but they are still coming in.

"Our banner Victory Garden towns are Woodstock and Saugerties with close seconds in many other communities.

"For 1943 every Garden Club and every organization able to promote interest in gardening at the preservation of food, should have a 'Food for

Victory' chairman and should do all in their power to promote bigger and better gardens. We stand ready to help you. The 1943 garden leaflets will be available again for clubs and individuals registering at the 4-H Club Office.

"May I say in closing that Mr. Bower and I feel that we have made a good start. All return cards show great interest in the leaflets and in the work, but 'Food to Win the War' is now more of a problem than ever, so please begin early and work late to double your effort for 1943. Tell your neighbors what you have learned, and send us in new recruits, and begin to plan your Victory Garden in January. How do I know, that's the right time? Because Mr. Bower says so."

ISABEL S. WARREN,
Victory Garden Chairman,
Ulster County.

Projects

Poultry projects enrollment is 83 members and 8763 birds, 18% more than in 1941. Early in February emphasis was stressed on buying chicks from local hatcheries where records of production were paramount. The result being very few chain stores and cheap chicks were used by the members. Thanks from us all to Professor H. E. Botsford for his work, for his timely suggestions and for the satisfying results. Nearly every member grew better pullets, prepared cleaner and warmer winter quarters and of course are receiving better income.

There are now five outstanding flocks, a total of 3810 birds producing above 50%. Fowl-pox came into the country, yet we 'Praise the Lord' our 4-H fowls have been spared. Our poultry boys and girls have increased the production approximately 22% over last year. Their contribution alone is exhilarating.

Ulster County is not the highest milk producing county in New York State; and so it follows, our number of dairy members is not large What herds our 4-H older members own, and the herds the younger members are growing are very good. The dairy member contribution is above last years by approximately 10%. Adult breeders are now aware that 4-H members are the most likely to be the future breeders, particularly the Guernsey men. Mr. John Saxe, Farmer, 4-H Club Executive Committee member, 4-H Local Leader, Key Banker and President of the local bank; and Mr. A. H. Chambers, Farmer, Automobile Distributor, have sold purebred calves (which they themselves would raise) very reasonable to 4-H members.

Many girls have been included in reporting the projects above. However, their homemaking projects have specifically emphasized Conservation of Clothing, repairing, cleaning, pressing, and remodeling of old clothes. Some made new clothes, but the costs were reasonable and the material selected with service in mind. They also helped their mothers with the clothing problems in their own homes for other members of the family.

More individual items of clothes were remodeled, remade, than ever before. The Annual Style Revue, even with travel handicaps was so far our largest in number of participants, Local Leaders, parents, and visitors. Competition was limited to only county boundaries. The quality of their work was the best ever said Mrs. Helen Davenport, one of our judges for the past five years.

At our annual one day fair, our girls exhibits in foods and clothing were large in number and exceptional good in quality. It seems more care and work was put in the entries with war efforts in mind.

The Homemaking program was under the supervision of Miss Iva Mae Gross, assistant State 4-H Club Leader. Mrs. Inez Prudent gave our leaders their instruction in foods. The physical appearance of our girls show Mrs. Prudent's ability to train local leaders; and the personal appearance should be credited to Miss Muriel Brasie, Clothing specialist. Local Leader training is a task, yet Ulster County fared exceptionally well with Miss Gross, Mrs. Prudent, Miss Brasie and Mrs. Althea Andrews as counselors and teachers. Mrs. Andrews, a very fine 4-H homemaking assistant, seemed to adopt Ulster's local leaders and girls and drew gratifying results. Her help will be missed.

Homemaking food projects were healthful and nutritious in "What Foods to Eat and Why" which brought timely education. Vitamins may not mean much to a youngster at ten, unless they have been able to have 4-H instruction. Many clubs in our rural school buildings helped prepare hot, nutritious lunches from Surplus Commodities with local leaders, parental and school teacher help. One school at Glenford, New York, served daily meals to all pupils. Other schools helped the under nourished children with hot lunches. Mr. Philip Schantz, Ulster County Welfare Officer, saw to it all requests were honored promptly. Through this "What Foods to Eat and Why" projects, many parents were shown the light of better nutrition.

Milk Magic was especially helpful in offering new recipes, and encouraged youngsters to drink and enjoy their quart of milk each day.

Mrs. Alice B. Marks and Mrs. Belton gave demonstrations in Food Preservation, canning of fruits and vegetables. The result, there is now more than 500 times as much canned fruit and vegetables as any previous years. Our country being somewhat urban too, saw the need to can, not only for themselves but to relieve the commercially canned fruit and vegetables for our service men and lend lease. For the last previous five years, all canning methods demonstrations were poorly attended, perhaps a dozen 4-H members and their mothers. This year over 200 attended canning meetings and 36 4-H members canned 224 quarts of fruits and vegetables.

105 girls enrolled in Fruits and Vegetable Favorites. Although this project may sound like a minor one, it was top ranking during this first war year. The need for energy, building and maintaining flesh, bone, blood, and teeth as well as muscles and nerves, guarded against infection; it is a morale builder. This project fell in line with the Victory Garden, the use of vegetables after they were grown and used fresh or after they were preserved and stored.

Early in the Spring, new cakes and cookies recipes giving sugar substitutes were sent to local leaders. Many clubs repeated the 1941 project with these new recipes, and results appeared in our County Fair.

REPORT OF WORK IN CHILDREN'S COURT OF ULSTER COUNTY FROM NOVEMBER 1, 1941 TO NOVEMBER 1, 1942,

To the Honorable, the Board of Supervisors of the County of Ulster:

Gentlemen:

In the twelve months preceding November 1, 1942, this Court has disposed of 163 formal cases. The detailed statistical data in connection therewith is annexed hereto. This is an increase of 26 cases over the previous year. There was a total of 85 neglected children, as compared with 63 such cases in the year 1940-1941. Delinquency charges were sustained in the cases of 25 boys and 3 girls during the past year and 20 boys and 9 girls were given assistance as physically handicapped children. Only one application for consent to marry was heard formally and the permission was granted. Charges were made against 5 adult males for failure to support their children and upon sufficient proof they were ordered to maintain such children. 15 other adult males were respondents in filiation proceedings. Upon satisfactory evidence, filiation orders were entered in 11 instances and the petitions were dismissed for lack of evidence in the remaining 4 cases.

Child Welfare

In no other report before you is the inadequacy of cold figures more apparent than in this report. For this Court, during the past year, has been responsible for the rendition of judgments which will affect the lives and the futures of 163 children and bear directly on several hundred adults whose future conduct has been indirectly shaped. Week in and week out there has passed in review more of pathos and poverty, selfishness and inadequacy, avarice and passion, than one would expect to find in these days of enlightened civilization. The object misery of many of the 85 helpless children, whose cases were heard on neglect charges, so starkly portrayed society's willing tolerance of "Tobacco Road" conditions as to jar any fair-minded person from complacency. However, unpleasant it may be, we must recognize the fact that there still dwell in Ulster County children who are poorly clothed, ill-fed and badly sheltered, and that their condition cries out for alleviation. Thus we have a long road to travel before we reach the goal of satisfactory achievement in behalf of our future citizens. Our child welfare program, which has already taken strides in the right direction, must be supported in fullest measure if we are to hope to rescue from a pitiful plight the hapless innocents whose needs must be met.

Juvenile Delinquency and Probation

It is with pleasure that I report that only 28 cases of juvenile delinquents were the subject of judicial inquiry. Although the charges range from burglary and sex offenses to mere acts of carelessness or mischief, only one commitment to a State Institution for delinquent children was required by the circumstances shown. A still wider use of probation has produced results that have been highly gratifying to the Court. Twenty children were added to the list of probationers since October 31, 1941. Despite the ever increasing burden cast upon Mr. Jenson, the Probation Officer, the uniformly good results which he has achieved emphasize again the value of intelligent, industrious and sympathetic guidance as the cure for tendencies toward lawlessness in children.

Physically Handicapped Children

A survey now being made by a representative of the Department of Education, though still incomplete, already substantiates the theory that the extension of aid to children who are physically handicapped can be justified economically. The restoration to sound health of body and limb or the retardation of the encroachment of disease in this group of children has already proved itself as a sound investment by the removal from public assistance rolls of those whose treatment has restored them to usefulness and opened for them the vista of normal healthy lives. Twenty boys and nine girls have benefited through the financial aid which your Board provides with the assistance of the State, during the year reported. Nine of these children have been made available to them the priceless benefits of education which was afforded through home teaching. Fifteen boys and five girls have had surgical attention, hospitalization, special braces and X-rays for the period here reported.

The law establishing this Court conferred upon it the power and the duty to defend those least able to protect themselves—children under the age of sixteen years. In cases of destitute, delinquent or crippled children, through the agency of the Children's Court, the law reaches out its guiding, helping hand. Its primary concern in any case is the promotion of the welfare of the child. In the accomplishment of this purpose, the Court has relied constantly upon the Children's Agents of the City and of the County Welfare Departments, Sheriff Anderson and his staff, Chief of Police Phinney, the State and City Police, as well as private agencies, and the Superintendent of Schools and his staff. Their generous, whole-hearted cooperation has been, at once, a source of great pleasure to me and an aid of incalculable value. Each of them has, with alacrity, performed every task and rendered every assistance requested of them. Their contribution to the solution of the many problems presented cannot easily be exaggerated.

Anticipated Increase in Juvenile Delinquency

While there has not been noted, up to November 1, 1942, and increase in delinquency, since that date there has been a marked upsurge in the number of delinquency charges. Thus, for the first time, we are beginning to experience the effect, upon some children, of these dark days of war. Since this tendency appears to be caused, in a substantial degree, by inadequacy of home supervision, lack of discipline and a general relaxation of conventional standards, none but a blind optimist would expect a cessation of this tendency until the cause is removed. The additional burden of investigation and supervision thus caused will fall upon the Probation Officer. Likewise, both the City and County Children's Agents will face an ever increasing task in the performance of their duties. For this reason, and with a full realization of your sincere desire to do all in your power to solve the problems of our children, I earnestly urge your generous support of all of those agencies.

Dated, November 16, 1942.

Respectfully submitted,

J. EDWARD CONWAY,
Judge of the Children's Court
of the County of Ulster.

REPORT OF THE WORK DONE IN PROBATION IN THE COUNTY AND CHILDREN'S COURTS FOR THE PERIOD FROM NOVEMBER 1, 1941 TO OCTOBER 31, 1942

To the Honorable, the Board of Supervisors of Ulster County:

Gentlemen:

Hereto attached I have the pleasure of transmitting the report of the work done in probation in the County and Children's Courts for the period from November 1, 1941 to October 31, 1942.

For almost two years we have had the benefit of the services of a full-time Probation Officer. A fair appraisal thereof immediately indicates that probation in Ulster County has achieved notable success in that short period of time. Both in County and in Children's Court, the facilities of probation have been used where, and only where, there was ground for belief that reclamation of the probationer might be accomplished. The suspension of sentence and use of probation has not been used as a mere means of permitting the guilty to escape punishment. On the contrary, it has been used only after careful investigation of the proposed probationer, and the rules have been designed to suit the particular defects to be corrected. Those rules have been rigidly enforced. Some of the results of this treatment arrests the attention and emphasizes the value of probation. We have had several instances of adult probationers who stand convicted of larceny, whose records of conduct, while receiving the firm guidance of probation, so impressed their former employers as to impel them to restore the probationers to positions of trust. One can appreciate the degree of confidence in the results of probation shown by these employers when it is disclosed that these very men were the original complainants.

In other instances, where addiction to intoxicants had brought its victims to the verge of alcoholism and involved them in the law violations, some startlingly successful work has been accomplished by the guidance of the Probation Officer. Men who stood before the Court as convicted criminals whose last vestige of self-respect had disappeared, have, through probation's aid, thrown off the habits and associates which caused their difficulties and won for themselves, again, the respect and confidence of their communities.

Many youthful offenders have been placed on probation during the past two years. Their response to the tactfully sympathetic approach to their problems exhibited by Mr. Jenson has been that of friendliness and willing acceptance of the guidance provided. They have come to confide in the Probation Officer whom they regard as a counsellor and friend rather than a harsh disciplinarian. The relations thus established have enabled Mr. Jenson closely to supervise and to encourage the children along the proper forms of conduct. His juvenile probationers have almost uniformly shown marked inprovement in school work, in acceptance of discipline, and in conduct. This improvement, if continued through adolescence, will make the difference between sound useful citizens who are an asset to society, and confirmed criminals, whose depredations annually exact a heavy toll of the taxpayers.

One cannot translate in monetary terms the achievements of our Probation Office during the past twelve months. However, one phase of the work performed by this official is susceptible at least in part to this standard of measurement. From adult probationers who have been required by the County or Children's Court to support dependents as a condition of probation, collections have been made as in the past. The success of these collections is, of course, dependent upon persistent enforcement of the rules of probation. During the past year, such collections totaled almost $1,000.00 per month. The comparison of the totals for the past three years translates in dollars and cents the value of this branch of probation, to the taxpayers of Ulster County. The totals are as follows:

1940	1941	1942
$1,549.23	$5,807.99	$11,856.72

It need not be stated that, if these collections had not been made and the sums devoted to the support of the dependents, public assistance would have been required to supply the deficiency. It can clearly be shown, therefore, that a single activity of the Probation Officer has saved the taxpayers several times more than the entire cost of the system. This has been done only by a complete disregard by Mr. Jenson of his own convenience and of any semblance of set working hours. He has been industriously engaged in the performance of his duties six full days and several nights of every week. Nor is the little leisure time remaining to him uninterrupted by the demands of his work. He has conducted almost 2,000 office interviews; he has traveled the County from boundary to boundary time after time in the conduct of investigations and the supervision of probationers. He has, in addition, been forced to do all the clerical work, including typewriting of all reports of investigations, reports to State departments and correspondence. The splendid success of his work, despite the handicaps which have heavily burdened him, gives an indication of the possible achievements, if such handicaps are removed.

In my letter of transmittal attached to the report submitted last year, I made two recommendations for your consideration. Therein I suggested "that attention should be given at the first feasible opportunity to the provision of a salary commensurate with his position, and second, to the problem of providing suitable quarters in the Court House where he may, in privacy, interview those who have business with the Probation Department." Neither recommendation was adopted. It now becomes imperative that action be taken to increase the salary of this able, efficient public officer, whose efforts have so vastly aided the County of Ulster. I earnestly urge that this matter be given your consideration.

The provision of office space in the Court House and the aid of stenographic help should also be undertaken, if possible, at this time and finally arrangements should be made to enable the Probation Officer to receive reimbursement for his expenses monthly rather than to continue the system whereby he must wait fifteen months therefor. Since many other agencies are so reimbursed, such as welfare agents and health nurses, no difficulty should be encountered in this regard.

The future course of probation in Ulster County is substantially in your control. Great progress has been made but there remains much to be done. We have received the honor of having our Probation Officer selected as a speaker at the last annual State Conference, and he has accepted several other similar invitations to address interested groups in adjoining counties. With your support, Ulster County's Probation Department can become one of the outstanding Probation Offices in the State. It can continue economically to solve the problems which fall to it. It can be increasingly valuable to all our people. I sincerely hope that your action will insure the attainment of those ends.

Dated, November 17, 1942.

Respectfully submitted,

J. EDWARD CONWAY,
County Judge of Ulster County and
Judge of the Children's Court
of Ulster County.

CHILDREN'S DIVISION REPORT

November 1, 1941—October 31, 1942

November 30, 1942

Board of Supervisors of Ulster County,
Kingston, N. Y.

Gentlemen:

To the Honorable Board of Supervisors, the Children's Division of the Ulster County Department of Public Welfare submits the report of its expenditures and activities for the period from November 1, 1941 through October 31, 1942. Through our report, we hope to call your attention to our objectives, to indicate our appreciation of your support, and to ask for your continued interest in helping us define more clearly and approach more closely those goals which we have in mind in planning for children who, for one reason or another, cannot live with their own parents.

When a child cannot remain with his own parents, or when the opportunity for his development into a normal, healthy, self-respecting individual is endangered by his remaining with unfit parents, he may be provided either with institutional care or with care in a foster home. We regard a home with foster parents as the more normal setting for a child's development. However, there are some children who require institutional care. We wish at this time to express our appreciation to the management of various institutions and of the Industrial Home particularly. This institution has given us a great deal of help in accepting children who needed, for a period of time at least, the benefits of an institutional program. Many children who come to us in a run down physical condition, utterly without training can be more easily accepted in a foster home after an initial period of institutional care.

During the past year the Children's Division has spent much time and effort in finding new, adequate foster homes. We continue to need new homes, and shall welcome your assistance in directing to us families who are interested in boarding children. Some of the qualifications regulating the licensing of foster homes are clearly defined by the social welfare laws. Other factors, of a less tangible nature, demand careful study and evaluation as to what value a particular home may have for an individual child. On November 1, 1941, 121 children were being boarded in

42 foster homes (not including relative's homes, free homes, wage homes, or work homes). On October 31, 1942 the 104 children who were being boarded in foster homes were in 50 foster homes. On November 1, 1941, 69 of the children in such care were in homes where there were four or more foster children, and 26 of the 69 were in homes with six or seven children. On October 31, 1942, only 43 children were in homes where there were four or five children and no foster homes were boarding more than five children. Since November 1, 1941, 11 foster homes have been discontinued. Some of these were discontinued because the foster family's own plans changed, others because they were inadequate, and others for a combination of reasons. Since November 1, 1941, 19 new foster home have been studied, licensed, and are now in use. Nevertheless, we have not been able to do as adequate a job as we should have liked in this respect. This is revealed by the fact that some children taken into care this fiscal year were placed in institutions and have remained there for a longer period than their needs would require, due to the fact that we do not always have available foster homes to which to transfer them.

During this year, thirty-four (34) children have been taken into care. Of these 17 have been placed in foster homes, 12 are in institutions pending more permanent plans, 3 were in free homes, 1 was placed to board with a relative and 1 was committed to a state training school.

Thirty-six children for whom expenses were paid at the beginning of the fiscal year or during the year, were changed to plans not involving expense to the county or the towns of settlement. For four children, relatives willing to give a free home were located; 3 children were committed to State Schools for Defectives; 2 children went from boarding homes to free homes; 16 children were returned to their parents; 9 children became self-supporting; 1 girl was married; and 1 boy joined the U. S. Army. We note that several other boys, formerly in foster care are in the armed forces. In addition to the thirty-six children for whom changed plans meant a decrease in expense, the situations of 41 other children required attention involving changes in plan. Nine children in foster home care at the beginning of the year are now being supported in institutions (six in one family). Foster homes were found for six children who had been in institutions over a long period of years. Seventeen (17) children were moved from one foster home to another; and five (5) children who had been boarded in foster home are now boarded with relatives. Three (3) children who were in free homes were returned to relatives or parents.

The table below gives an accounting of the whereabouts of each of the 241 children for whom the Children's Divisions has responsibility of one kind or another at the beginning of the new fiscal year, and compares this with the whereabouts of children November 1, 1941.

Whereabouts of Children for Whom Children's Division has responsibility.

	Boarding Homes	Free Homes	Free with Relatives	Earning Own Expenses	Boarding with Relatives	Institutions	Supervision in Own Home	Other	Total
11/1/41......	123	8	2	7	6	33	49	1	229
11/1/42......	105	8	5	14	10	43	54	2	241

As we begin the new fiscal year, we see the necessity for continuing our efforts to find adequate foster homes, for continuing to attempt to locate relatives of children who have been in care for years and with whom contact has been lost, for giving serious consideration to what every neglect situation may mean in terms of a child's future capacities to be a good citizen, and for planning for adoption of some children who have no family ties.

The account below indicates the amount of money expended for the purpose of providing care for the junior citizens of Ulster County who could not be cared for in their own homes.

We have spent a considerable sum of money for the care of children outside of their own homes. However, in this time of war, it is of interest to consider that we have spent less for this purpose than the cost of one of the larger instruments of war. The weapons of destruction are necessary; the provision of means for supplying the junior citizens of Ulster County with the opportunity to develop into worthwhile individuals is a constructive measure, of equal necessity.

Respectfully submitted,

A. D. KNIFFIN,
Commissioner of Public Welfare.

REPORT OF THE ULSTER COUNTY WAR COUNCIL

The Ulster County War Council has established in each Town of the County;

A Deputy Director of Civilian Protection.

A Complete Set Up of Civilian Protection Personnel.

A Report Center in each Town where activities for that Town will be controlled in case of an enemy Air Raid.

It has established in Kingston and Air Raid Warning Center which is prepared to warn all parts of the County and the City of Kingston of impending Air Raids in a space of ten minutes.

It has established a County Control Center which is prepared to direct all activities throughout the County during an enemy Air Raid.

Approximately 225 volunteer personnel serving 2 hour shifts man the Warning Center and Control Center 24 Hours a day.

The total number of County persons in Civil Defense Personnel is approximately 3,200.

Emergency Casualty Stations and First Aid Posts have been established in every Town in the County. Where population is concentrated, more elaborate stations have been established.

Three Mobile Emergency Medical Trams have been established, one each in New Paltz, Ellenville and Saugerties with the necessary Mobile Medical Equipment.

Nearl every Town has furnished Blood Donors for the manufacturing of Blood Plasma. This Plasma will eventually be stored in all the Towns so that a supply will always be available in case of need.

Red Cross, Emergency Welfare, Police, Firemen, Utilities, Medical Service, Public Water Systems and Public Works Personnel and Equipment have all been co-ordinated so that in case of enemy action, they will be readily available on a County wide basis.

In addition the condition of the building at 240 Fair Street, made it imperative that repairs be made to it before it could be used.

At the present time the building is housing the War Council and Civilian Protection Offices, The Civil Service Commission, the Red Cross Disaster Committee, The Chief Air Raid Warning System, part of The Rationing Board and the Director of Emergency Medical Services.

The Ulster County Rationing Board has been greatly expanded since its establishment, and there is no doubt that it will continue to grow during the coming months as more articles and food are rationed to the public.

Some members of the Board have inspected the War Council Offices and Equipment, and I invite all of you to make a visit to the offices.

The entire set up of Civilian Defense and Rationing has become more elaborate and more costly than we were able to forsee at the time the appropriation was made last Spring, and it is my opinion that the additional appropriation of $4,000.000 to carry through this year is amply justified.

ALBERT CASHDOLLAR,
Chairman.

REPORT OF THE WORK DONE IN PROBATION IN THE COUNTY AND CHILDREN'S COURTS OF ULSTER COUNTY, N. Y.

November 1, 1941—October 31, 1942

To the Honorable J. Edward Conway, Judge, County and Children's Courts, Ulster County, New York:

Your Honor:

This report comes to you at the conclusion of but two years full time probation service in Ulster County and it is with a great deal of pleasure that I submit the following report of our activities for the period from November 1, 1941 through October 31, 1942.

As was pointed out in our last annual report, a complete re-organization of every phase of probation took place in our County during 1941. Since that time the scope of our activities has continued to expand at a steady rate and from all present indications that expansion can be expected to continue at an even greater rate in the time to come.

It is true, that our ultimate aims and objectives for probation in Ulster County have been set on a level of high standards, perhaps considerably higher than we will actually be able to fully realize for a long time to come. But a constant drive toward those aims and objectives has always been uppermost in our thoughts and efforts.

Probation, still perhaps the least understood phase of the entire correctional procedure, has however, especially during these days of emergency and threat to our "American Way of Life", continued more than ever before to be considered fundamentally a sound and necessary phase and function of governmental service to the people.

During the year I have endeavored to serve the Supreme, County and Children's Courts as completely as possible with as well rounded a probation program as our physical set-up would permit.

Generally speaking, our activities, as you know, are divided into two distinct classes. One having to do with adults, the other with the juvenile or child offender. Our combined totals indicate that during this year we have handled in intake, probation and supervision, some 334 cases.

Of this number, 193 cases had to do with adult offenders in County or Supreme Courts, while the remaining 141 dealt with matters pertaining to juvenile delinquency in the Children's Court. There has been a gradual but steady increase in the number of actual probation cases in all Courts served. At the close of 1941, adult probation cases showed a total of 34 on hand as compared with a total of 42 on hand at the close of 1942. As for supervision cases in the adult Courts, at the close of 1942—17 cases were active, a total of 31 having been handled during the year. Our intake service (adult) having to do with pre-sentence investigations in all cases coming before County and Supreme Court Judges indicates that during 1941 a total of 22 cases were handled as compared with a total of 99 during the present year.

In Children's Court our actual probation case load at the close of 1941 showed a total of 9 active cases. At the close of 1942 however, there are presently a total of 22 cases on hand. Supervision cases in Children's Court show a total of 33 cases having been handled during the year with 22 active in the present time. The Children's Court intake service, having to do with pre-court investigations in every case coming before the Judge of the Children's Court, shows that during 1941 a total of 39 cases were handled as against a total of 66 having been handled during 1942. During recent weeks, the marked increase in delinquency cases coming to our attention would seem to indicate that this is to be one of our major problems in the year to come.

During the year probation violations necessitating the revocation of probation have totaled only 6. Of this number 4 of those returned were adults while the remaining 2 were children.

In addition to the handling of the above mentioned cases including the vast amount of clerical detail, reports to the State Department, etc., your probation officer has concentrated a great deal of effort on that phase of our activity having to do with the collection of money for family support and restitution. I sincerely believe that the results of this effort are self evident. This money is received from individuals either on probation or under supervision and is paid directly to the probation officer who in turn records the payments and later pays the beneficiary by probation department checks. Our records indicate that at the close of the 12 months ending October, 1940, prior to full time probation, there was a total of $1,479.23 collected. At the close of the 12 months ending October, 1941, the first year of full time probation, there was a total of $5,807.99 collected. During this year, that is the 12 months ending October, 1942, our records indicate a total collection of $11,856.72. A brief look at these figures show that during the 12 months ending October, 1941, our probation collections increased by $4,328.76 over 1940 and that during the 12 months ending October, 1942, they increased by a total of $10,377.49 over the same period of time in 1940.

When it is considered that by far the greatest number of these payments range from $3.00 to $10.00, and that a full bookkeeping system subject at any time to audit must be kept, and that checks must be mailed weekly in most cases, one realizezs the importance of this rapidly growing phase of probation service. Again this year I repeat most emphatically as I did a year ago, that had the principal wage earner in these families been incarcerated instead of placed on probation, public and private relief organizations might well have had to provide a considerable part of this sum to care for a number of these families.

No such program as we have endeavored to carry on could have met with even a small degree of success had it not been for the splendid degree of cooperation from outside sources. Appreciation for this assistance and cooperation is hereby acknowledged to the Sheriff of Ulster County and his staff, to the City and State Police departments, the City and County Welfare departments and their respective branches, the City and County school systems, employers, religious leaders and Catholic Charities. I feel that special mention should be made in behalf of the Volunteers of America for their assistance and to the Institution for Male Defective

Delinquents at Napanoch and Mr. Max Cooper, Psychologist of that institution for his assistance.

Your probation officer is confident that the present physical set up of our office is not in accord with good judgment and does not conform to the fundamental principles of fairness to our clients. Chief among these i does not permit the much needed privacy desirable for the nearly 2,000 office interviews held during the year. This factor I hope, may in time be rectified.

As regards our immediate needs, I feel that in view of the record itself, the question of increased compensation to an amount considered fair and reasonably in accord with the job being done, should be given every possible consideration by those whose duty that may be. Likewise, the matter pertaining to the expense allowance as provided by statute, I feel should be made available in advance by appropriation to be drawn upon monthly through the year rather than yearly as is presently the situation.

In conclusion may I state that every effort has been made to serve Your Honor and the County of Ulster in the most efficient and economical manner possible. I feel certain that an even better job is yet to be done in the field of probation in Ulster County and that as time goes on, with the adequate cooperation and consideration of the Board of Supervisors, we may not only more nearly approach the high level of our aims and objectives but that our County may become a leader in this Democratic, humane and economical form of governmental service.

LAWRENCE M. JENSON,
Chief Probation Officer, County and
Children's Courts, Ulster County
New York.

REPORT OF THE ULSTER COUNTY PUBLICITY COMMITTEE OF THE BOARD OF SUPERVISORS

From May 14 to November 20, 1942

In the meeting of the Board of Supervisors on May 14, at the request of organizations, hotel associations, civic clubs, and public officials, the Board passed an appropriation to publicize Ulster County as a resort and vacation area and appointed a Publicity Committee composed of Jacob Rogers, Chairman; Charles F. Kaiser, Andrew J. Snyder, Joseph Koenig and Edwin W. Ashby, with full power to formulate plans for an advertising campaign in an endeavor to bring much needed business to the County and to increase the revenue of our business interests. This Committee was to work in conjunction with a Citizens' Committee representing the various towns of the County and the wards of the City of Kingston. Exhibit "A" attached lists Committee.

Meetings were immediately held and the plan of advertising decided upon by the Committee to obtain the best results obtainable was two fold. First, to advertise in the five leading New York City newspapers generally used by the resorts and boarding houses of the County. Second, to issue illustrated folders on Ulster County featuring the historic, scenic and recreational attractions and possibilities of our County, for distribution in the metropolitan area as an added attraction for vacationists.

Newspaper Advertising

Contracts were made with the New York Journal-American, Sun, Times, Herald Tribune, and Brooklyn Eagle for 30-line, 2-column advertisements in the Summer Vacation Directories and on the best resort advertising Sundays of June, July, and August, supplemented by 3-line rate holder advertisements on week days and Sundays to September 27. The first advertisement was issued on June 7, and throughout the season totaled 5 large advertisements in Summer Directories and 13 in Sunday papers, and 64 small advertisements on week days and Sundays. Detailed program of advertising listed on Exhibit "B".

Ulster County Folders

Bids were advertised for 20,000 ten-page folders, 4″x9″, with 4-color cover and 2-colored map. A. F. Schoen Publishing Company of Saugerties, the lowest bidder, was awarded the contract. In the latter part of June the first quantity of these folders was sent to transportation companies, resort bureaus, and personnel departments of large corporations in New York City and New Jersey. In July and August additional quantities were sent to these same bureaus, and a total of 14,100 folders were distributed in the metropolitan area through these agencies. The balance of the folders were distributed through the Board of Supervisors, Publicity Committee, Mayor's Office, City of Kingston, Convention of Veterans of Foreign Wars, Ulster County Realty Board in their out-of-county mail, window display of the Central Hudson Gas & Electric Corporation, hotels, taxi and transportation companies, and in answering written and telephone inquiries. Exhibit "C" details specifications, cost and distribution.

Newspaper Cooperation

Throughout the season the local papers gave unexcelled cooperation to the advertising program and published 110 articles covering our endeavors and the advantages of Ulster County as a resort community. Heading these were numerous excellent editorials, which have done so much in crystallizing cooperative action of our people in publicizing our vacation advantages.

In addition to the advertising, the New York City newspapers published 21 news articles on the advantages of our County, an unheard of number of news releases for this County in metropolitan papers. These articles were most advantageous to our program.

Throught the excellent cooperation of Senator Arthur H. Wicks, the New York State Vacation Guide of the State Bureau of Publicity contained three pages of text and 12 pictures of the historic and scenic points of our County. This far exceeds any cooperation ever received through any public agency in publicizing our County.

Through the assistance of John Van Gonsic of the Adirondack Trailways Bus Company, an article was published in the July-August Edition of the "Trailways Magazine" and distributed throughout the United States, glorifying the advantages of this area as a vacationland. This was the only article published in this issue on the entire state of New York.

The Central Hudson Gas & Electric Corporation published two articles in their Bulletin and attractively displayed Ulster County folders in their office window in Kingston and advertised the County on their stationery.

Excellent cooperation in our advertising was received from the literature and advertising of the transportation companies serving the County, especially the New York Central and Ontario & Western Railroads, Hudson River Day Line, Trailways, Greyhound, White Stages and other bus lines.

Method of Answering Inquiries

At the beginning of this campaign, the Committee requested through the town Supervisors that all boarding houses, hotels, resorts, and others catering to vacationists to send in to the Court House copies of their literature, folders, circulars, etc. In answering the written inquiries, special emphasis was given to recommend to our prospective visitors the particular towns or places best fitted to meet their requirements. In the replies, copies of the Ulster County folder and copies of any other folders available were mailed, giving the most information available on the facilities of Ulster County and its resorts. There were numerous instances in which the Committee did not have detailed information on the facilities available in certain towns. In order to expedite the sending of information to the inquirers, listings were sent to the Supervisors of the particular towns with a request that they be passed along directly to the resort people for immediate attention. In the meantime, the Committee mailed Ulster County folders to those inquiring, with the information that they would receive additional information direct from the resort people.

Advertising Results

As a result of this advertising program, the Committee received 381 written requests for accommodation information on vacations.

This is an unusually high percentage on return for advertising, far excelling the recognized standard of 37% return for profitable advertising.

At the same time, the Telephone Information Bureau—Kingston 1405—received 152 calls from vacationists asking information on where to spend a vacation in the area.

Detailed calls listed on Exhibit "D".

Of the inquiries received, three were from individuals desiring to buy property in the County. These were referred to the members of the Ulster County Realty Board for attention.

During the season, copies of the Vacation Directories, Tear sheets from the New York papers carrying the ads, copies of news releases, and other media of advertising the County were sent from time to time to each member of the Board of Supervisors and to each of the Committee members in order to keep them thoroughly familiar with the progress of the activity.

Financial Report attached as Exhibit "E".

Acknowledgment

The Publicity Committee expresses its sincere appreciation to the editors of our local papers, resort editors of New York City papers, resort bureaus, transportation companies, the Mayor of the City of Kingston, Senator Wicks, State Bureau of Publicity, Rosendale Township Association, Trailway Magazine, Veterans of Foreign Wars, Realty Board, the personnel of Central Hudson Gas & Electric Corporation, and all others whose donations of cuts, art work, displays, information and personal services contributed so materially to the success of this advertising program.

Conclusions

A survey of the resort business in this County this year shows that almost without exception all of our resort communities had a most successful season—some towns and boarding houses reporting the best season they have ever had, and all merchants reported increased revenues.

It is impossible to trace the benefits of an advertising program or positively itemize the increased business obtained through it, but we have reports from boarding houses and resorts listing the business they received directly from our advertising and from business houses in the County and City of Kingston attributing their increases directly to our efforts.

Conservatively we can state that from 750 to 1,000 people spent their vacations in this County through our advertising. Assuming an average weekly rate of $15 to $22, plus the additional spending of vacationists for entertainment, etc., the returns from such an advertising program were most profitable to the County.

Not one word of complaint has been resistered against the program, but on the contrary people, organizations and business concerns have either called or written more words of praise, commendations and expressions of appreciation than possibly any other activity ever carried on by the Board of Supervisors.

Three possible reasons for our outstanding success were: First, that the campaign was launched at a most opportune time. Last spring many of our boarding houses, farms, resorts and businessmen catering to vacationists were very pessimistic of business during the summer due to the war conditions. Some even feared their ability to pay taxes and retain their homes. Second, as war restrictions prevented vacationists from traveling long distances, it brought the resort areas nearer the metropolitan area into greater prominence and demand. Third, the reduction of advertising in the New York City papers by distant resort areas eliminated greatly our competitors, increased the reader interest of articles in the New York City papers of nearby areas and the demand for resorts easily reached by public conveyances.

Recommendations

From surveys conducted recently by nationally known travel and resort bureaus, resort areas within 150 miles of large cities and war plants and easily reached by public conveyances will receive increased business from vacationists this winter and next year. War restrictions to travel, while harmfully injuring or destroying distant resorts, will bring untold benefit to those nearby areas known to the vast multitudes now earning fabulous wages in war plants and will be patronized by them in seeking rest, relaxation and respite from the worries and strains of war.

Fifty years ago this was one of the most famous resort areas in the United States, but with the advent of the automobile and the failure of our people to advertise, it passed from popularity. Today, we have more vacation advantages than we ever had. In addition, with three railroads, a boat line and eight bus lines, we have a far better public transportation system than most areas in the country.

The 1942 advertising appropriation was spent in publicizing the summer and early autumn business. Considering its success and recognizing our advantages and opportunities for all year business next year, we respectfully recommend that $2,500 be placed in the budget for 1943 for a year round advertising program. Such an appropriation would allow a longer advertising program, with advertisements of a size to attract attention, and do much to re-establish this region in the metropolitan market. Through it we could bring prominence and prestige to our County and with the cooperation of our boarding house people and allied interests, assure successful business to our County for years to come.

In our all out war effort, Ulster County can contribute greatly to the success of our country by diligently caring for the health and morale of the families of those who work for us as well as those who fight for us. By advertising our area as a safe haven for those seeking rest and relaxation from the strains of war, we can give them renewed strength and vitality for the ardorous work ahead.

Respectfully submitted,

ULSTER COUNTY PUBLICITY COMMITTEE,
JACOB H. ROGERS,
CHARLES F. KAISER,
ANDREW J. SNYDER.

ANNUAL REPORT OF THE BOARD OF ELECTIONS OF THE COUNTY OF ULSTER FOR THE YEAR 1942

Kingston, N. Y., January 27, 1943

To:
The Secretary of State,
The Board of Supervisors of Ulster County.

Gentlemen:

We are herewith submitting the annual report of the Board of Elections of Ulster County for the year 1942 pursuant to the provisions of Section 34 of the Election Law.

The tabulation of the enrollment for the year 1942 has been completed and a copy thereof is hereby attached and made a part of this report.

The complete tabulation of the enrollment for the year 1942 shows a total of 25,328 being as follows:

Republican	17,907
Democratic	7,234
American Labor	187

The enrollment for the year 1942 shows a marked decrease over that of the year 1941, the decrease being 3,468. The decrease of the enrollment is undoubtedly largely due to the number of men from the County in the armed forces of this Country.

CENTRAL REGISTRATION

Central Registration pursuant to the provisions of the Election Law for the year 1942 was conducted at the office of the Board of Elections from June 1st to September 30th inclusive.

The total number of persons registered by the Central Registration Board for the year 1942 was 58. This is an increase of 20 over the number registered for the year 1941.

VOTING CERTIFICATES

Your Board during the year 1942 issued only 57 Voting Certificates which shows a considerable drop from 1941, being 112 more for the year 1941 over that of the year 1942.

FALL PRIMARY

The official fall Primary Election was held throughout the County of Ulster and the City of Kingston on August 11, 1942. As required by statute your Board prepared the notice of such Primary Election and published the same together with the list of polling places in the City of Kingston.

The designating petitions filed with the Board were duly examined and found to be in compliance with the Election Law.

Notices were mailed to all persons designated for public office as appeared from such petitions as were filed with the Board of Elections. Your Board, in accordance with its duties, prepared and furnished the necessary official and sample ballots for all parties in all election districts and these together with the necessary stationery and other supplies were delivered to the various town clerks in each of the towns of the County of Ulster outside the City of Kingston and to the city clerk of the City of Kingston for all election districts therein.

Your Board canvassed the vote as cast at such Primary election with the following results:

Republican High Vote	990
Democratic High Vote	717
American Labor High Vote	37

The total cost for the conduct of such Primary election was $3,642.96.

VOTING BY MEMBERS OF THE ARMED FORCES

Your Board received 306 applications for War ballots for the year 1942 of which all were accepted by said Board. Ballots to each of the 306 applicants were mailed out and your Board received 218 returned ballots.

Your Board received 6 Foreign War ballots of which 5 were not counted for the reason that the 5 were not qualified to vote. The remaining ballot was counted and results thereof transmitted to the Secretary of State.

REGISTRATION OF VOTERS

Personal registration for the year 1942 occurred on October 9, 10, 16 and 17th in the City of Kingston where registration is personal and outside the City of Kingston where registration is non-personal, on October 10 and 17th.

The total registration for the year 1942 was 52,831 of which 40,851 was non-personal and 11,980 was personal. The registration for the year 1942 shows a decrease of 4,484 under that of the year 1941. This again is largely due to the number of men from the City of Kingston and County of Ulster who are now in the armed forces of the United States and also to the fact that many men from this county and city are located elsewhere in defense works.

The expenses incurred by your Board in connection with the registration of voters was $205.47.

ABSENTEE VOTING

Your Board for the year 1942 received 362 applications for absentee ballots of which 23 were rejected and 339 accepted. Absentee ballots for those whose applications were accepted were mailed.

GENERAL ELECTION

General Election for the year 1942 was held throughout the County of Ulster on November 3rd and as required by statute, your Board prepared the notice of general election together with the list of nominations which was published according to the provisions of the Election Law. Your Board also furnished the required number of lists of nominations to be posted throughout the County of Ulster and City of Kingston. The necessary supplies for the voting machines and all other supplies necessary for the proper conduct of such election were furnished by your Board.

The expenses incurred by your Board for the conduct of such general election was $6,772.05.

REPORT OF THE COMMITTEE ON COUNTY COMMISSIONER OF THE PUBLIC WELFARE OF THE BOARD OF SUPERVISORS, 1942

To the Honorable Board of Supervisors,
County Court House,
Kingston, New York.

Gentlemen:

Your Committee on County Commissioner of Public Welfare submits the following report on its activities and its findings.

Your Committee has met at various times throughout the past year in connection with its official duties and has conferred from time to time with officials and representatives of the Bureau of Welfare Institutions and Agencies of the State Department of Social Welfare.

Generally speaking, the Institution or as it is better known the County Poor Farm at New Paltz, New York, as a whole is in good condition although there is much to be done in the way of capital improvements. In this connection your Committee wishes to report that plans have been drawn which have been approved by the State Department for changes in the physical structure at the Institution, but under the present emergency it will not be possible to secure the necessary priorities on the building materials that would be required.

The women's building and infirmary have been entirely redecorated and repaired and a women's dining room has been installed which does away with a long walk through drafty corridors to the old dining room formerly used by the women. This one item in and of itself, shows that consideration is given to these elderly ladies at the Institution. We have been given to understand that the men's building is to receive the same attention and the same redecoration as was given the women's building together with the improvement of the sanitary facilities.

The danger of fire which is always greater where a number of people are congregated and are old and infirm, has been improved by the installation of key stations, the sealing in of old wall ventilators and the addition of several fire extinguishers. There are nine fire hydrants on the premises together with a hose cart. This together with the fact that the fire department in New Paltz is available affords fairly good fire protection.

We have observed and noted the following improvement changes:

A septic tank has been installed and connected with the sewage outlets of the Home. As hereinabove referred to, there were new toilets installed in the women's section and the men's section was somewhat improved also. The physician's office and keeper's supply room have been repainted. The following new equipment has been added: 60 new mattresses; 24 beds; 3 gatch beds; an examining table and a diathermy machine. There is a new record of admission book. New entrances have been constructed to two cellar ways. We are glad to report that the practice of placing the legs of beds in cans of exterminating fluid in the men's dormitory has been discontinued. The furniture in the women's dormitory has been repainted and the recreation room as well as the bed rooms are bright and cheerful.

Your Committee at this time wishes to compliment the County Commissioner of Public Welfare for the progress that has been made in the past year. It demonstrates in our mind that he is a public official with a deep sense of responsibility and has instilled in the Home not only among the help, but among the inmates, a spirit of cooperation, cheerfulness, and satisfaction and we further feel that if the same degree of improvement extended this year is continued, the County Home will soon take its place among the County Institutions of its kind that afford a clean comfortable retreat for the aged.

Respectfully submitted,

HARRY D. SUTTON,
AULEY C. ROOSA,
ORSON S. HAYNES,
ARTHUR J. WOOD,
Committee on County Commissioner of Public Welfare.

Dated Kingston, N. Y., December 18th, 1942.
